Chaucer challenge

There are five houses in a row, each of a different color, with Canterbury pilgrims as owners. Each pilgrim has a different animal for a pet, a favorite drink, and a favorite food. Can you use the 15 clues below to fill in the chart and to answer the two problem questions?

1. The Reeve lives in a brown house.
2. The Miller owns a hunting dog.
3. Wine is drunk in the green house.
4. The Parson drinks tea.
5. The green house is immediately to the right (your right) of the ivory house.
6. The meat-pie eater owns a workhorse.
7. Boiled chicken is eaten in the yellow house.
8. Ale is drunk in the middle house.
9. The Wife of Bath lives in the first house on the left.
10. The pilgrim who eats cheese lives next to the pilgrim with the fox.
11. Boiled chicken is eaten in the house next to where the duck is kept.
12. The soup eater drinks apple juice.
13. The Friar eats veal.
14. The Wife of Bath lives next to the Blue house.
15. The middle house is not the ivory house.

- Problem:**
1. *Who drinks buttermilk?*
 2. *Who owns the polecat?*
