

Christmas Anagram Inequalities

A Puzzle by David Pleacher

In each puzzle, rearrange the given letters to form a 9-letter Christmas word, then write that letter in the diagram, one letter per square.

As a hint, there are inequality signs between the squares:
A less-than symbol (<) means a letter is before another in the alphabet,
the greater-than symbol (>) means a letter is after another letter in the alphabet,
and the equal sign (=) shows that both letters are the same.
